

KIRK NIGHT

Kirk Knight is a Hip Hop artist and producer, best known for his affiliation with the Brooklyn Hip Hop collective, Pro-Era. Knight is the main producer for the collective, having produced for most members of the Pro Era team, including Joey Badass. Kirk is also a style curator who dabbles in fashion, working with several cutting edge brands; Bape, Billionaire Boys Club and Adidas. He is an influencer who is also an aspiring actor, appearing in the indie movie **Patti Cake\$**.

At just 21 years old, Kirk is an old soul and a true artist. He is a Hip-Hop ambassador who has toured Europe and North America. His fan base are irreverent, bold, fashion forward and influencers themselves. His “direct to fans” approach is evident in his social media presences and music alignment with other cultural curators.

He is a new generation music visionary, who sees beyond beats and bars, his approach is more sound design than just making beats. His music is emotional and gritty with global Hip Hop appeal. As an artists Kirk is reflective and honest with a raw and brash flow.

Recently, Kirk Knight co-produced four tracks for Joey’s Badass’ hit album and latest project; **All American Bad Ass**. His production credits includes “**Devastated**”, Joey biggest commercial hit to date. He has also collaborated and produced for **ASAP Ferg, Flatbush Zombies, Logic, Nyck Caution, Rico Love**, etc. He is set to release his next project **Nyck@Knight** a collaboration with Pro-Era’s **Nyck Caution**.
